**Avant, 884/MB2**  
**credenza \ sideboard**

Avant, famiglia di contenitori in frassino, è composta da credenza, con gambe in due altezze in ottone brunito, e madia. Elemento funzionale ed estetico distintivo del progetto, il bordo superiore massellato delle ante battenti e dello schienale, che sovrasta lievemente il piano, in marmo o vetro retroverniciato: da un lato consente la presa e l'apertura delle ante, dall'altro esalta la venatura del legno, una pregiata lavorazione artigianale. All'interno ripiani in vetro e, su richiesta cassetti: centrali per la credenza e posizionati in alto per la madia.

*Avant, a range of ash containers, is proposed in the sideboard version, with burnished brass legs in two heights, and cupboard. A distinctive functional and aesthetic element of the project is the upper edge of the hinged doors and of the back side, which slightly overhangs the top, in marble or back-painted glass: on the one hand it allows the grip and the opening of the doors, on the other it enhances the wood grain, a fine craftsmanship. Inside glass shelves and, on request, drawers: central for the sideboard and placed on top for the sideboard.*

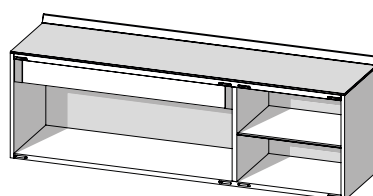

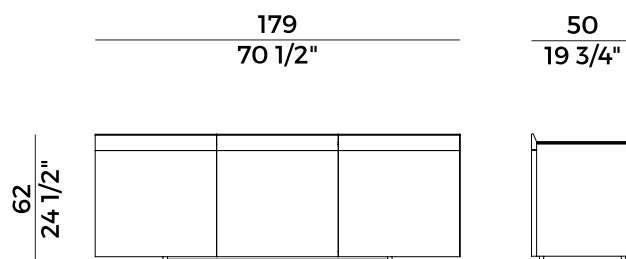

## Informazioni tecniche \ *Technical information*

### Descrizione tecnica \ *Technical description*
